MYSTERY LIGHT
 The "LIGHT" has defied explanation since it was first sighted many years ago, although theories abound. See this phenomenon on Robbins Pond Road, an unimproved rural lane which was once part of a military road authorized by Abraham Lincoln during the Civil War in anticipation of a British attack through Canada.

Surrounded by dense woods and from the summit of nearby hills, the mysterious light can be observed almost every night once darkness has descended on the northern wilderness. It appears to rise slowly out of the forest and then hovers low in the sky for varying intervals - ranging from a couple of minutes to over a quarter of an hour. Often described as looking like a "bright star" it first seems to be a campfire ember, reaching an intense reddish glow, then becoming a haze and finally receding to a mere spark before disappearing into the night.

Explanations vary from fanciful to factual. Some say it's the spirit of a long dead mail carrier ambushed by Indians over a century ago. Others insist it is the ghost of an engineer killed in a nearby railroad accident in years gone by. One woman thinks it's a mystical sign of religious significance. In the meantime, "THE MYSTERY LIGHT" continues to baffle, intrigue and mystify the visitor.

Directions to the Paulding Light – Take State Highway 45 north out of Watersmeet, Michigan for about 5 miles. Look for "Robbins Pond Road" (old State Highway 45) on the left as the road begins a slow bend to the right. There is usually a sign right before the road. Turn left on Robbins Pond Road. Follow that gravel road about 3/8 of a mile till you come to the dead-end barricade. During the summer months, you will also see a National Park Service sign there.

2018 All Seasons WATERSMEET Business Directory

In Michigan's Upper Peninsula
 Where the Air is Clean
 and the Water Unpolluted.

Everything for Outdoor Fun!
 Nature has smiled on the Watersmeet area of the Upper Peninsula. Miles of exciting trout streams and hundreds of spring-fed lakes abound with fish of many species. The beautiful forests lend excitement to your stay each and every season. Enjoy the creatures of the forest, our clean fresh air and waters, friendly people, and all the wonderful scenery of this bountiful area. We look forward to your visit and will do all in our power to make it enjoyable. We invite you to visit Watersmeet soon.

LAC VIEUX DESERT

As the headwaters of the Wisconsin River and the home of panfish, walleye, bass and musky, Lac Vieux Desert provides anglers and families with over 4200 acres of pristine boundary waters. Resorts range from American plan to housekeeping cottages. The lake boasts the world record Tiger Musky!

OTTAWA NATIONAL FOREST • SYLVANIA TRACT

The Sylvania Tract is unique! It is made up of 18,000 acres of virgin timber and 36 lakes with over 4,000 acres of unpolluted waters. Sylvania is located within the Ottawa National Forest in Gogebic County, and only 300 miles north of Milwaukee and 160 miles east of Duluth. Camping, fishing, hunting, hiking, swimming and cross-country skiing are great in the magnificent Sylvania!

The Famous CISCO CHAIN OF LAKES

Visitors will enjoy their vacation on the famous Cisco Chain of fifteen lakes with over 271 miles of scenic shoreline. Nestled in our colorful forests and abounding in wildlife, it is one of the largest chain of lakes in the world. Two undeveloped lakes on the chain remind us of days past when solitude prevailed. Excellent fishing for walleye, musky, northern pike, bass and panfish provides long days of enjoyment. The state record silver musky came from Thousand Island Lake. A day boating on the Cisco Chain can take you to both Michigan and Wisconsin. Resort facilities range from modest to deluxe to satisfy the most discriminating visitor in all seasons. Side trips to the Porcupine Mountains and Lake of the Clouds, Bond and Agate Falls, six major ski hills and many other scenic areas are about an hour's drive away.
